Monitoring by the non-Federal entity must cover each program, function or activity. See also [§ 200.332](#).
- Schools need to keep the money
- Schools need to stay out of the headlines

Areas We Cover / Monitor

- Fiscal Spending – Different from Programmatic Monitoring
 - Fiscal is focused on Dollars and Rules
 - Programmatic is focused on results – Such as score improvement
- Focus on Federal Expenditures – Fiscal Compliance and Reviews

ESSER Monitoring – Initial Focus Area's

- Bonuses
 - Construction
 - Davis-Bacon Compliance
 - Inventory
-
- Next: Learning Loss (20% Set Aside ESSER III).

Findings – Bonuses

- Inadequate Documentation
- Inadequate Formal Approvals
- Inadequate Basis for the Bonus
 - For instance, if based on retention – begin and end dates

Findings - Construction

- Construction spending has been particularly tricky for districts to manage.
- Lack of Awareness – Ownership Requirement
 - Gets more complicated with related party Foundations
- Davis-Bacon Wage Requirements
 - See next slide
- Federal vs. State Law – if Federal Money – must use the most restrictive
- Required Annual Reporting - NEW – Property Survey
- Requirement for a Filing of Federal Interest

Findings – Construction – Davis Bacon

- Lack of Awareness
- Lack of Experience with Davis-Bacon
- Smaller Contractors have no experience with Davis-Bacon

Findings - Inventory

- Lack of Documented procedures
- Failure to follow documented procedures
- Inability to locate assets
- Failure of reasonable controls for 'Vulnerable' assets (eg Ipads)
- Lack of required practices for Assets not being used for the intended purpose:
 - For instance, learning software never installed
 - For instance, temperature monitors no longer being used
- Federal Law Requires proper maintenance plan and actions.

Learning Loss – The Requirement

- A School that receives ARP ESSER III funds must reserve at least 20 percent of the funds to measure and **address the academic impact of lost instructional time on all students**, through the implementation of evidence-based interventions, such as interventions implemented through summer learning or summer enrichment, extended day, comprehensive afterschool programs, or extended school year programs. The school must also ensure that such interventions respond to students' academic, social, emotional, and mental health needs and address the impact of the COVID-19 pandemic on groups of students disproportionately impacted by the pandemic.
- Fiscal Monitoring – Under Development

Learning Loss – Findings (so far)

- Monies Spent on Learning Loss not separately accounted for
- Learning Loss Definition open to some interpretation
- United States Department of Education releases continuing clarification – on-going
